Objective

AI & Data Science undergraduate with hands-on experience in ML/DL, NLP and CNN projects, seeking an AIML internship to build real-world AI solutions using Python, TensorFlow and RAG-based systems.

Education

Dr. D.Y. Patil University, Pune – BTech in AI & Data Science (Expected: June 2027)

Skills

- **Programming:** Python, SQL, C++
 - **ML/DL:** Regression, Classification, CNN, Feature Engineering, Model Evaluation
 - **Libraries/Tools:** NumPy, Pandas, Matplotlib, TensorFlow/Keras, Jupyter Notebook, Git/GitHub
 - **Concepts:** Data Preprocessing, Feature Engineering, Model Evaluation, Cross Validation
 - **Coursework:** Machine Learning, Deep Learning, Computer Vision, NLP
-

Projects

Emotion AI Chatbot (NLP Project)

- Created a chatbot that detects user emotion from text and replies accordingly
- Used emotion/sentiment classification to improve conversation quality
- **GitHub:** <https://github.com/Vaibhavsakure/Emotion-Ai-Chatbot>

PDF Chatbot using RAG (Retrieval-Augmented Generation)

- Built a PDF-based chatbot using RAG to answer user queries from document content accurately.
 - Implemented text extraction + embeddings + vector search for fast and relevant context retrieval.
Code: Available on request
-

Experience

AICTE – AI/ML Intern (Jan–Feb 2025)

- Built a CNN model for plastic waste classification with 90%+ accuracy.
- Performed preprocessing and evaluation on thousands of images.

Extracurricular Activities

Additional: DSA & problem-solving | AI/ML events (DevFest/workshops) | GenAI projects (RAG/Chatbots)
